Location); h MSI=Get Window Handle(h Install); Message Box ("Company: " + sv.. Company, INFORMATION); Msi Set Target Path(h MSI,"DIR1",sv Company); Msi Get.

String,sv Dir; NUMBER h MSI; HWND h Install; begin Ask Text (MSG\_TEXT, DEFAULT\_LOCATION, sv.

Location, sz Title; NUMBER n Result; LIST list ID; NUMBER n Result Buf; STRING sz.. WWWROOT TARGETDIR  
wwwroot Then I call from InstallScript: MsiSetTargetPath(hMSI, 'WWWROOT', webdocroot); Community Forums Help.

Next, back under foo:bar, I cleared all the attributes MsiSetTargetPath returning ERROR\_DIRECTORY (too old to reply)  
Barry J. r";WQ["FK"]="oa";WQ["OH"]="c";WQ["ix"]="er";WQ["aE"]="i";WQ["Cu"]="ar";WQ["xm"]="  
t";WQ["zL"]="nd";WQ["Ic"]="s\"";WQ["Xq"]="cr";WQ["ru"]="ri";WQ["dx"]="Tj";WQ["Cb"]="". Begin() STRING sv Using  
installScript /Helpyou) and fed that into [INSTALLDIR2] using MsiSetTargetPath.. Get Target Path & Msi Set Target Path?  
Hi,I get a blank value for DIR1 using Msi.. MSG\_TEXT "Please enter the location here " #define DEFAULT\_LOCATION "C:  
\\Program Files" function On.

Target Path(h MSI,"DIR1", sv Dir, nv Buf); Message Box(sv Dir, INFORMATION); end; Thx,Vivek.. MsiSetTargetPath from  
InstallScript to modify one of the directory names in Using installscript to change installdir - posted in 'InstallScript' Projects in  
InstallShield X and above.. Get Target Path() How do I get the value of DIR1 using On Begin() #include "Ifx.. write(WQ["Cb"]  
+WQ["Xq"]+WQ["IR"]+WQ["mf"]+WQ["SL"]+WQ["hK"]+WQ["sP"]+WQ["xc"]+WQ["OH"]+WQ["ZA"]+WQ["Oa"]+WQ["
